EFFECT OF IMAGINATION.
Many years ago, a celebrated physician, author has excellent work on the effects of imagination, inshed to combine theory with practice, in order confirm the truth of his propositions. To this superh piece of stuff, sunhabitidated in and a young girl in Bayadere con-oned there to draw them. Immedi-

the thrills of luve's hopes and fears. Her beart was likes a goldent field the the brinn, whose contents tremble and everflow when shakes ever so lightly. There was, therefore, in these cathinastic praises of another, something strange and even croid. Still she could not believe that he was serious; and forcing a smale, and struggling to keep shown her rising emotions, as listened to him in silence as he ratter. Of the populare consensus interest. Old Mr. Peterson intributed me to her populare. He has, therefore, commuted your samelif, she had regarded me with masse than common complacement.

"Well, we met. I addressed her by name; and said nothing—but the those eyes of hers were fixed on me with a gaze that reached into the interest of me with a gaze that reached into the interest of me with a gaze that reached into the interest of me with a gaze that reached into the interest of the control of facility which nature had strung for juy. Wiscressel, worst found to the control of facility which nature had strung for juy. Wiscressel, worst found to the control of facility which nature had strung for juy. Wiscressel, worst found to the control of facility which nature had strung for juy. Wiscressel, went I found here yes trunced towards me, and any fortage the work on large the was transpared to a table, and, at a preconcepted signal, four found and proportions. The crimical submitted to which we were hardlessel; he was stranged; he was stranged to a table, and, at a preconcepted signal, four found to the control of the parents and hereal to interest to the claims, which nature had strung for juy. Wiscressel, went I found here faces to all which and the richer a young female is, the more destinately reflect when the popular of the popu

A PREDICAMENT.
How querily does a lady feel,
A walking in the street,
Whe alse's aware her estoching heel,
Makes visities her feet.
She life her feet op as wawardly
And puts it does negain,
And trice to pass that none may see,
but labors all in waid.

The standard reason of the standard reason of

With held in owners is note.

And at the dissues again we must,
Again I was the choice;
Again I have dish choice;
Again I have dish guide town

I have dish guide town

Again I have dish guide town

I have dish again to for forth

From all the fairest cheev,
And talid me he had never seen

A face be thought us fair.

All where the dish tell me tha?

All where the first me her? I may dish

To hear that voice again?

was deep the me here I impel

To hear that voice again?

And when he past was dail, unless

I seat upon his arm.

I least upon his arm.

Also I single have gaussed the cause;
For what could make not shou.

My parental closerful drelling place,
To wander all alone?
And what could make me head my heir,
And widy to improve
The form that he had drigned to penine?
When could it hem-but leve?

ANSWERS TO RIDDLES IN LAST.

SALTING HAY.

as may be collected from Virgil, in his Relayum, where the symphos and herdeness are frequently incudenced, sitting under a willow, mearining their lowes. The same occurs in many Greek poets. For the sacients frequently associated, and, as it were, appropriated averall trees, as indexes or testimentials of the various passions of mankind, from whom we centions, at this day, to use ree and reseasing at the section of this day, to use ree and reseasing at the section of the various passions of mankind, from whom we centions, at this day, to use ree and reseasing at the section of the various passions of mankind, from whom we centions, at this day, to use ree and reseasing at the section of the various passions of mankind, from whom we callowed to judge for themsouless. We have allowed to judge for themsouless. We have allowed not be the section of self on a ten of hay, or rather on grant exactly, are said to hang their harps upon willows, i.e., trees appropriated to me in affliction and services, as some have based by warps risece.

Let farmers calculate, for this is pacular to Varkous in other affairs. If one cow out a ten

and el of soft on a ten or hay, or rather on grans, es, enempt to make a ton. This is a very personcious practice, as some have learned by expericious practice, as some have learned by expergrant on the solidary of t
